

TUCSON INTERNATIONAL AIRPORT (TUS)
RESIDENTIAL SOUND INSULATION PROGRAM (RSIP)
NOTICE OF INTENT TO PARTICIPATE

The Tucson Airport Authority (TAA) has initiated a voluntary Residential Sound Insulation Program (RSIP) to mitigate the effects of aircraft noise for properties surrounding the Tucson International Airport (TUS) due to the construction of a new parallel commercial runway on its property. The property at **[INSERT ADDRESS]** is located within the project area and has been identified as potentially eligible for participation.

The landlord/agent under the residential tenancy agreement hereby gives you notice of their intent to participate in the TUS RSIP. The purpose of the TUS RSIP is to reduce the interior noise level through treatments which may include replacement of windows, doors, addition and/or replacement of caulking and weather stripping, or improvement to ventilation systems.

There will be a variety of appointments that will require access to your premises. Your landlord/agent will provide notice to the tenant in advance of each appointment. For more information on the TUS RSIP, please visit <https://www.TUSSoundInsulation.com/>

Please sign below indicating you have been notified of your landlord/agent's plan to participate in the TUS RSIP and return it to the landlord/agent's listed address below.
